

Anne Bahnsons artikel side 193-209 er en dansk version af den engelsksprogede artikel »Ancient Skin Clothing passing through Copenhagen«, Publications of The National Museum, Ethnographical Series, vol. 18, Copenhagen 1997.

Bogen er et festskrift til arkæolog og museumsinspektør Jørgen Meldgaard som tak for over 50 års betydningsfuldt arbejde i det arktiske og på Nationalmuseets Etnografiske Samling.

Fagfællerne Rolf Gilberg og H. C.

Jørgen Meldgaard.

Gulløv har redigeret det engelsksprogede værk »Fifty Years of Arctic Research«, på 344 sider, 1,3 kilo fordelt på 35 danske og udenlandske arktiske forskere.

Publikationen, der er rigt illustreret med sort/hvide fotos, kort og tegninger, har en omfattende bibliografi, et stednavneregister på 464 og et personregister på 617.

Isbjørnen på bogens forside blev udgravet af Jørgen Meldgaard ved Alarnerk, Igloolik i Arktisk Canada i 1954. Den 15,6 cm store figur er skåret i hvalrostand og er dateret til Dorsetkulturen, (500–1000 e.v.t.).

Festskriftet koster normalt 350 kr. (inkl. moms), men som medlem af Det grønlandske Selskab og abonnent af tidsskriftet Grønland har man nu mulig-

hed for gennem selskabet at købe festskriftet for 290 kr. (inkl. moms + forsendelse).
